

RESIST THE DRONE WARS

Public meeting and discussion

7pm, Monday 24 March 2014

Friends House, 173-177 Euston Rd, NW1 2BJ

"If they just knew for a second what a weapon can do, what it costs us, I think they would stop. I think they have no souls . When they look at the TV and see the news did they see the people killed by these drones, how did they feel? If they just came here for one night and heard the bombing and the planes and the drones – I don't know what they would feel – I think they should come here and live our experience in war and they would understand."

Ridda Abu Znaid, who watched as her sister and cousin were killed by an Israeli drone strike in the Gaza strip in 2009, speaking about the companies who manufacture drones

RESIST THE DRONE WARS

A public meeting and discussion, called by UK groups campaigning against drones

Drone attacks caused the most deaths during the Israeli attack on Gaza in 2012. Find out how to make sure that Israeli drone makers don't profit any further from bloodshed in Gaza.

Come and hear the stories of those at the receiving end of drone technology, taken from Corporate Watch's recent visit to Gaza.

Mary Dobbing will talk about Drone Wars UK's recently published research into Israel's production, use and proliferation of drones.

The meeting will close with practical planning about how we can resist the drone wars from here in London, led by London Palestine Action.

Yosra Al Showa – killed in an Israeli drone strike on her home on November 20 2012.
