

SITUATIONAL AWARENESS COMMAND & CONTROL (SACC) DELIVERY TEAM

The SACC team is responsible for the procurement and in-service support of Airspace Battle Management (ABM) and Tactical Data Link (TDL) equipment and systems.

The ABM portfolio includes:

Support to fixed and deployable Air Command and Control (C2) systems, and a number of related data link systems. Projects include the UK and Falkland Island Air C2 system (UCCS and FCCS), the deployable Tactical Air C2 systems (TACC), Air Defence Systems Integrator (ADSI), Air Defence Ground Environment Datalink Buffer Systems (ADLBS), Ship Shore Ship Buffer (SSSB) and Control & Reporting Centre System Integrator (CSI).

Delivery of projects to sustain, replace and improve ABM equipment in line with MOD requirements.

The TDL portfolio includes:

Support to In Service Tactical Data Links across a number of MOD platforms including Link 11, Link 16 and associated TDL network management tools and services including Interoperability Testing and the Joint Network Management System (JNMS).

Delivery of projects to sustain, replace and improve TDL equipment in line with MOD requirements.

PUMA 2 GAZELLE PROJECT TEAM (P2G PT)

The Puma 2 Gazelle (P2G PT) team provides operational and in-service support to the Puma and Gazelle helicopter fleets, including the function of Engineering Authority and the management of Logistic and Maintenance support to both fleets operated by Joint Helicopter Command (JHC).

Responsibilities include repair and overhaul, spares, technical engineering support such as airworthiness and safety management, and other in-service support. The team was responsible for the Acquisition Programme to deliver the Puma Life Extension Programme (LEP). This programme involved major system upgrades including digital cockpit, more powerful engines and an up-rated tail rotor as well as the associated changes to support arrangements including training. Full Operating Capability was achieved in January 2016.
