

Directory of Prime Contractors

The Directory of Prime Contractors contains brief details of the MOD's Prime Contractors who were paid £5 million or more by the MOD in Financial Year 2015/16. The Prime Contractors listed below have current contracts with the MOD covering a wide variety of products, service or works requirements.

The MOD recognises its tier one Prime Contractors will have existing supply chains and it wants to help companies, particularly SMEs, to identify opportunities that will emerge across the defence supply chains. In order to assist Primes in fulfilling their Prime Contract obligations with the MOD, sub-

contract requirements may from time to time arise from these contractors' Prime Contracts with the MOD, which may be of possible interest to SMEs.

The Directory, which is not an exhaustive list of all the MOD's Prime Contractors, contains a very brief description of the types of work that these Prime Contractors are involved in, together with contact and website details. Companies of all sizes, but particularly SME companies, which are interested in the possibility of becoming sub-contractors to the MOD, may wish to approach some of these Prime Contractors, where appropriate, to discuss possible future business opportunities.
